It's always difficult to improve on a truly fine product but perfection is achieved only through constant research and development. Such is the progress history of the versatile Arriflex 16.

Therefore we are pleased to announce the following new features now incorporated in the Arriflex 16.

- 1** **AUTOMATIC BUCKLE SWITCH** Camera is automatically switched off in the event of film jam or break and when end of roll is reached. This is a very important feature when camera is housed in Blimp.
- 2** **NEW SPROCKET ROLLER GUIDE ASSEMBLY** Makes film loading even easier and quicker.
- 3** **MOTOR-CABLE CATCH LOCK** Automatically engages and locks power supply cord to camera plug-in receptacle.
