DO-IT-YOURSELF POCKET CATALOG

This Toyota Pocket Catalog will assist you when purchasing parts most often used for do-it-yourself maintenance. If you have questions, please consult your Toyota Parts counterperson for assistance.

Toyota parts are specified by model number, engine type and/or production date. Also, for certain models, production location is important. Here's where to find this information on your vehicle:

Model Number Information

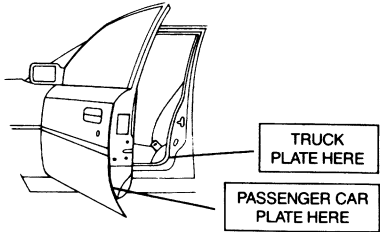

To determine the vehicle's model, engine type, and production location*, locate the appropriate Vehicle Identification Number (VIN) plate as shown in the illustration below.

* Japan produced vehicles have a 17 digit VIN number that begins with "JT." All other vehicles are produced in North America.

Production Date Information

To determine year of vehicle production, locate the production date plate as shown in the illustration below.

All Vehicles
on either the door pillar or on the door as shown

Once you know your Toyota's model number, engine type and production date, enter them below along with the Vehicle Identification Number (V.I.N.) for future reference.

Model Number _____

Engine Type _____ Prod. Date _____

V.I.N. _____

Scheduled Maintenance Checklist

Toyota vehicle maintenance requirements are designed with long service intervals to save you both time and money. However, each regular maintenance is important to help **ensure safe, trouble-free, and economical driving.** Under severe driving conditions, **more frequent maintenance may be required.** Refer to your owners manual for details. The manual may be ordered through your Toyota Dealer.

The items listed below are recommended to complete each service properly. Check the appropriate list to ensure that you have not forgotten any item.
